It would be nothing short of folly to elect a Socialist mayor of Los Angeles, especially at a time the city is about to spend millions in improvements. ### HORSE STOLEN—RETURNS WITH PLUNDER

**Taken From Barn Unharnessed  
—Comes Back With full Outfit and Ice Wagon.**

Charles Stanberg, 2312 N. Maplewood ave., lays claim to having the smartest horse in the city, and he has evidence, in the shape of a brand new wagon to prove it.

Last Thursday morning, "Barney," the equine wonder, was stolen from Stanberg's stable, harnessless. An express wagon in the barn was not touched. And yesterday morning Barney returned home, dragging behind him a shiny ice wagon, and all decked out in a new harness.

There was a rattling and a stamping at the stable door, accompanied by an appealing whinney, which Stanberg recognized as the oat and hay appeal of his kidnapped horse.

He went to the barn and there was Barney, chaperoning the ice wagon and harness. The name of W. C. Hreesgors, 612 Davis street, Evanston, was on the wagon. Mr. Hreesgors said he had retired from business, and no

longed owned the wagon. Stanberg will keep it as balm for the hurt caused by Barney's absence from home.

But—why an ice wagon this time of year?

### LUNCH SERVED IN DRUG STORES

Oklahoma City., Nov. 11.—Oklahoma City is dry and the saloon free lunch has disappeared. Now every drug store in town has a lunch counter.

Lunch signs are displayed

prominently on drug stores. One druggist explains it this way:

"When the saloons closed, folks tried to get their drinks in drug stores. But these went dry, too, and there was a boom in soft drinks. In cool weather, crack-ers were served with hot drinks, Folks found this a substitute for free lunch.

Finally the free lunch became too elaborate and we put in lunch counters. Now every drug store in Oklahoma City is selling sandwiches, chill con carne, cake and pie."
